

OUR SERVICE AGREEMENT

Why do we get the oil changed in our cars and why do we get it tuned up on a regular basis? The answer is simple. We want to lower the overall cost of operation and we want to minimize the possibility of breakdowns. A Service Agreement on irrigation systems works the same way. By having routine maintenance done on your system (service is performed twice a year) it lowers the overall cost of operation, increasing overall efficiency and minimizes the possibility of breakdowns.

Have you ever forgotten to change the battery in your controller only to have it quit when you are on vacation? Have you ever gotten irritated because the spray pattern got messed up and you were not sure how to correct it? Or perhaps you realize the need for regular maintenance but just never seemed to get around to calling us to service the system.

The Satter Irrigation Service Agreement offered to you provides routine service for your irrigation system twice a year. It also gives you a 20% discount on Parts and Labor for any repairs needed during the life of the contract.

WHAT IS COVERED IN OUR SERVICE AGREEMENT?

We perform service on your irrigation system twice a year, including:

Option #1

During the Spring Start Up we do the following:

- Set clock and replace battery
- Check vacuum breaker for leaks
- Check valve boxes and wiring
- Check entire system for leaks
- Clean and adjust sprinkler patterns
- Check Rain sensor
- Estimate and advise any necessary repairs
- Waive trip charge for this service call

During the Fall Winterizing we do the following:

- Complete winterizing of system
- Estimate and advise any necessary repairs

Option #2

- Everything in Option #1 plus a mid season check-up.
- For an additional \$60 we will come back to your house mid season and recheck system for dry areas and leaks, etc.
